Further to these projects ITC during the past few years has been implementing many projects to minimize the cost and time of trade exchange, mainly: the online trade facilitation portal, supporting the textile and clothes sector in Jordan, e-commerce hub, and other which are related to enhancing the pre arrival processing.

We are confident the ITC future plans and vision will maximizing MSMEs, and business women contribution to the Global GDP, with a sharper focus on competitiveness and trade to the achieve the SDGs.

We believe that technical assistances remains one of the main tools to help build trade capacity and human resources for LDCs and Developing countries especially in these very challenging times and geopolitical environment.

To conclude, I would like to once again congratulate the ITC for its positive contributions to inclusive and sustainable growth, and we look forward to continue this great work and cooperation with the ITC and other donors and partners.
